

APPENDIX-A: Thymeleaf Context Diagram and UML Package Diagram

1. CONTEXT DIAGRAM:

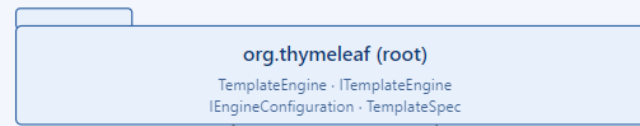

2. UML PACKAGE DIAGRAM:

LAYER 01

API

Public entry point
Façade — used by clients

LAYER 02

Core

Engine & default dialect
Architectural centre

LAYER 03

Template Handling

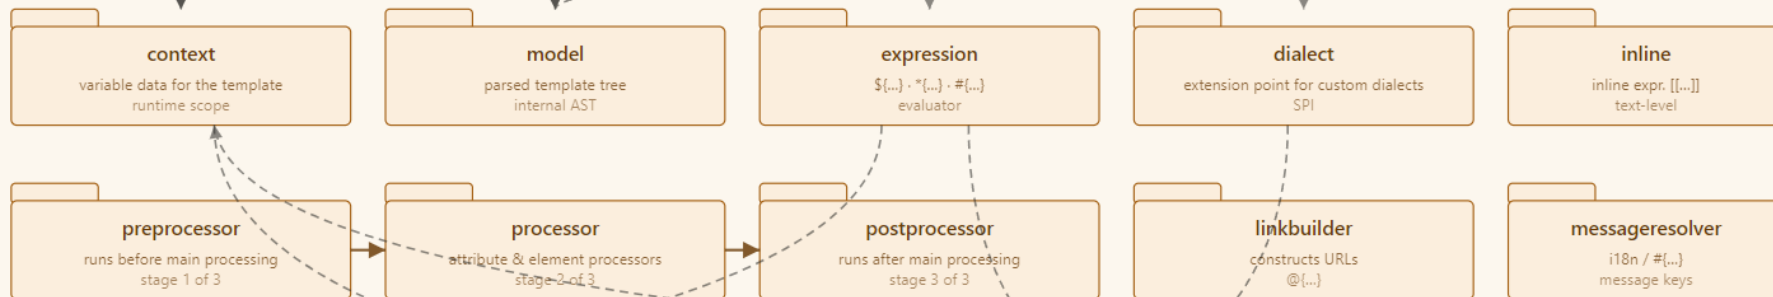

Locate · read · classify
Pre-processing input

LAYER 04

Processing Pipeline

Context · model · expression
Processors · dialects · i18n
Active runtime — pipes & filters

LAYER 05

Infrastructure

Cache · util · errors · web
Cross-cutting support
